

AllStarLink Overview – La Porte County Amateur Radio Club (LPCARC)

What is AllStarLink?

AllStarLink is a network of **Amateur Radio repeaters, nodes, and remote stations** connected via the Internet using **Asterisk software**.

It allows licensed operators to communicate locally over RF or remotely over the Internet — linking repeaters and nodes around the world.

Basic Signal Flow

Radio → Local Node (e.g., Raspberry Pi, SHARI, or Repeater Interface) → Internet → Remote Node → Remote Radio

LPCARC Club Node

Callsign: W9LY

Node Number: 635952

Located in La Porte County, this node allows members to connect, experiment, and link with the wider AllStar network.

Common DTMF Commands

Command	Function
*3 + Node#	Connect to a remote node
*1 + Node#	Disconnect from a specific node
*6	Disconnect all links

Club Rule

◆ Please remember to disconnect when finished by using *6.
